Fall Fashion for Furry Fashionistas

Photography by Animax

Fall fashion for the furries just got a little more stylish in these great jackets, hoodies and T-shirts. Whether it's coverage for cooler conditions or just a little something to make you snug, these funky fashions are fur-fabulous.

1 Urban T range features great designs and fitted comfort. Adorned with little birds, flowers or a hydrant, they're made in the USA, are 100% cotton and provide protection from UV rays.

2 The Combat is urban cool with cargo fabric, studs and contrast over stitching. Crystal embellished back pocket gives this little jacket a sparkly edge.

3 Seize the power and overthrow other shabby fashions in the Coup D'etat. Lightweight, yet warm for winter, this great little jacket has a water resistant outer and comes in a range of colour combos

4 Long before Snoop Dog there was the original-Snoopy. Your dog will be Joe Cool wearing this faux leather jacket with embroidered World War Ace emblazoned on the back.
