The Weird and Wacky of the Internet

Every once in a while, we encounter bizarre photos which may be on the Internet or emailed to us. Some of them are obvious Photoshop Phonies and some are merely degrading poses or simply ugly pets.

This series however takes the cake and wins the prize. It was snet to us in an email by one of our advertisers based in Brisbane who got it from someone else in Sydney who got it from a Czech friend via the US. In other words, despite us vigorously searching for the source of the photos and hoping to get permission to use them, we were totally stymied.

We are happy to pay for their use, being the copyright cops we are, and hope to enlist the aid of readers in finding their rightful owner. We tried to make up funny captions for them but may not be able to do as well as you do. So whoever gives us the most hilarious caption for one of these will win some great catnip, a couple of cat books and whatever else we can dredge up as a puss prize.

All creatures great and small deserve the *right* start in life...

...your new kitten is no different.

Start your kitten on **Holistic Select** or **Eagle Pack Super Premium** pet food and watch the newest addition to your household grow into a happy and healthy member of your family.

Cats are fussy eaters. What they eat as kittens shapes them into cats. So protect them against kidney problems and other nasties by starting them off on a nutritional, human grade, well balanced diet early and you will see the benefits as they grow.
