

Up', from the Disney Pixar studios, tells the story of 78 year-old Carl Fredrickson who sets out to fulfill his lifelong dream to see the wilds of South America by tying thousands of helium balloons to his home. Right after lifting off, however, he learns he isn't alone on his journey, since Russell, a young Wilderness Explorer, has inadvertently become a stowaway on the trip.

The real star, however is a canine by the name of Dug who is given the power of speech by a human voice collar. Dug's performance was deemed so good that he was awarded the 'Palm Dog' award, a comic alternative to the Cannes Film Festival's main prize the Palme d'Or.

Pixar's 'Up' is scheduled for cinematic release throughout Australia from September 10.
